The examination of the classes below the Diploma was conducted by the College staff on the same lines as last year, that of classes II and III being chiefly by means of written papers, in the lower classes being mainly oral. Inspection.

The inspection of the College was conducted by Dr. K. S. Caldwell, Professor of Chemistry, Patna College, and Mr. R. Sanderson, Inspector of Schools, Lahore, from 21st to 28th March, 1916.

The Inspectors in their report noted that the English Staff is temporarily sufficient, having been strengthened by the addition of Messrs. Drake and Evans, and assisted by Major Cole and Mr. Bladen, who are in charge of special boys, but volunteer their services for College work. They further considered that the staff is efficient, and recorded their impression of the fitness of the members of the staff for their special work. They also noted with approval the physical fitness of the boys, the general tone of the College, the relations between masters and pupils, and the bearing and behaviour of the boys.

The organization and instructional state of the College were considered satisfactory. Some minor suggestions for the teaching of English grammar and writing, geography and other subjects will be acted upon as far as possible.

Their criticism on the accommodation provided by some of the State Boarding Houses refers, I believe, to only one or two houses, where increased ventilation and light in some rooms are desirable.

As regards the Post Diploma Classes the Inspectors repeated the opinion recorded in previous reports that this section should develop into a separate Higher College and that its retention here should be considered a temporary measure.

The Monitors were 6 in number. Kanwar Himmat Singh of Kunari, Kotah, proved an efficient Head Monitor.

NOTEWORTHY EVENTS Prize-giving.

12. The Annual Prize-giving took place on 24th November, 1915, when the Hon'ble Sir E. G. Colvin, K.C.S.I., Agent to the Governor-General in Rajputana, presided. There was a large gathering of Chiefs and visitors and some 45 Old Boys were present.

Old Boys' Gathering.

The Old Boys' Gathering was held in connection with the prize-giving. Matches at Cricket, Hockey, Polo and Tennis were played between Past and Present.

Meeting of the General Council.

The General Council met on the 23rd November, 1915, when 11 members were present in addition to the Hon'ble Sir E. G. Colvin, K.C.S.I., who presided. The Council recorded their opinion that the Post Diploma classes should be carried on if possible until the Higher Chief College is opened and that the Chiefs who contribute should be asked to continue their subscription for a further period of 3 years from 1916-17 or until the Chiefs are called upon to pay their

donations to the Higher College, if this occurs before the expiry of the 3 years. Further that the Government of India be asked to continue the loan of the services of two officers for Post Diploma work until other arrangements can be made.

In this connection it may be stated that the Government of India have acceded to the request of the Council for the loan of the services of Messrs Drake and Evans.

The Council desired that the list of Post Diploma boys who have passed through the course, showing their present positions and employment, should be printed and circulated to all Darbais represented on the Council.

Of the 48 boys who have passed through the course up to 1916, 9 are Ruling Chiefs or Thakurs in charge of their estates and 2 are heirs-apparent. Of the remaining 37, 7 have secured employment under the British Government and 17 in the Native States. The suitable employment of such youths is a question of vital concern to the higher education of the Indian aristocracy and will, I hope, be seriously considered by the General Council and by Government.

The Council adhered to their former opinion that fees should not be generally imposed unless the financial necessity is very pressing, and considered that the present situation does not demand their imposition. At the same time they considered it very desirable that the permanent English Staff, which now consists of a Principal and 3 Assistants only, should be strengthened, with the consent of the Government of India, by the addition of one Assistant as early as possible.

As regards the Indian Staff the Council agreed with the view that it is desirable to secure men of unquestionably high qualifications, and that the scale of salaries should be revised with this object as opportunities offer. For the present they decided to raise the pay of the First Assistant's post from Rs. 200-20-300 to Rs. 300-20-400, and to add to the cadre one post on Rs. 300-20-400. One post of Rs. 75-5-100 should be abolished as soon as any vacancy occurs.

The Council approved of the proposal to instal electric fans in the class rooms, and referred the question of ways and means to the Managing Committee.

The Managing Committee met on 24th November, 1915, and again on 15th April 1916.

The Managing Committee.

At the former meeting an extra sum of Rs. 865/- for minor improvements was sanctioned, including an iron gateway for the west approach road; the rent of the Kashmir House was fixed at Rs. 150/- per mensem; and a Superintendent of the College Stables was appointed on probation for 6 months, his pay and the cost of veterinary medicines being met by a contribution of Re. 1/- per month per pony. The Committee also decided that 4 ponies should be the limit for any one boy at the College, not including any pony kept by a State for the use of a tutor or companion to a Minor Chief or Thakur.

At the latter meeting the Budget Estimates for 1916-17 were considered and passed, including an estimate of Rs. 15,584/- for 70 fans in the class-rooms and Science Laboratories and Rs. 3,000/- for the purchase of land. The pay of the Colvin House Motamid was fixed at Rs. 100-10-150, and that of the Stable Superintendent at Rs. 150/- per mensem, the contribution to the Stable Fund being raised to Rs. 2/- per mensem for each pony.

The question of presenting medals, in addition to certificates, to successful Diploma and Higher Diploma candidates was referred to the General Council.

The great war has continued to form the chief preoccupation of the College. Mr. W. A. Guest-Williams, who was a temporary member of the staff in 1914, was unhappily killed in action. Three regular members of the staff, Messrs, Twiss, Ashcroft, and Braithwaite are still serving at the front in France.

The War

Lectures on the war were given at intervals and the College War Fund, maintained by boys, masters, guardians and subordinate staff, sent monthly subscriptions of approximately Rs. 750/- to the St. John Ambulance Association for Indian troops in Mesopotamia, the Belgian Relief Fund, the Imperial Indian Relief Fund, the Indian soldiers in Europe, the Blue Cross Fund for animal,

the Queen Mary's Club for the Overseas Forces, the National Emergency Fund of the Y. M. C. A., the hospital at Basra, the French Red Cross Society and the Rajputana Aeroplane and Motor Ambulance Fund.

On the first anniversary of the declaration of the war on August 4th, 1915, a special donation of Rs 1,500/- was placed at the disposal of His Excellency the Viceroy, as a token of the devotion of the College to the just cause in which India is helping the Empire.

19. In acknowledging the good work of the English and Indian Staffs I must especially mention the voluntary assistance rendered by Major Cole both in the class work and the training of the College Squadron, and by Mr. Bladen, who placed his whole time at the disposal of the College during class hours. To their assistance, and the ungrudging labours of the regular staff, are due the satisfactory results of the examinations and the inspection.

I have the honour to be,

Sir,

Your most obedient servant,

C. W. WADDINGTON,

Principal, Mayo College, Ajmer.

6. "There's all them Frenchy devils over the Channel yonder a-murderin' their king and nobility, and Mr. Pitt and Mr. Fox and Mr. Burke a-fightin' and a-wranglin' between them, if we Englishmen should 'low them to go on in their ungodly way."

Give a brief account of the historical facts underlying this statement.

7. Why did Marguerite marry Sir Percy? What did people say about the marriage?
8. Explain the following :—
Emigré, Guillotine, Schooner, Citoyenne, Jeunesse dorée.

ENGLISH POETRY.

(*Answer five questions.*)

1. Quote your favourite passage in the play (or some fifteen lines of it) and say why you like it.
2. Give an outline of the historical events on which the play of King Henry the Fifth is based.
3. Give a character sketch of King Henry. Where possible, quote from the play in support of your statements.
4. Give an outline of the story of the play.
5. Write out the meaning of the following in your own words :—

Thus with imagined wing our swift scene flies,
In motion of no less celerity
Than that of thought. Suppose that you have seen
The well-appointed king at Hampton pier
Embark his royalty ; and his brave fleet
With silken streamers the young Phœbus fanning :
Play with your fancies, and in them behold
Upon the hempen tackle ship-boys climbing ;
Hear the shrill whistle which doth order give
To sounds confused ; behold the threaten sail,
Borne with the invisible and creeping wind,
Draw the huge bottoms through the furrowed sea,
Breasting the lofty surge ; O, do but think
You stand upon the rivage, and behold
A city on the inconstant billows dancing ;
For so appears this fleet majestic,
Holding due course to Harfleur.

6. Explain and comment on :—

- (a) We do not mean the coursing snatchers only,
But fear the main intendment of the Scot.
Who hath been still a giddy neighbour to us.
- (b) Treason and murder ever kept together,
As two yoke-devils sworn to either's purpose,
Working so grossly in a natural cause,
That admiration did not hoop at them.
- (c) Is not their climate foggy, raw and dull ;
On whom, as in despite, the sun looks pale,
Killing their fruit with frowns ? Can sodden water,
A drench for sur-rein'd jades, their barley-broth,
Decoct their cold blood to such valiant heat ?
And shall our quick blood, spirited with wine,
Seem frosty ?
- (d) Their ragged curtains poorly are let loose,
And our air shakes them passing scornfully :
Big Mars seems bankrupt in their beggar'd host,
And faintly through a rusty beaver peeps.
- (e) Ha ! art thou bedlam ? dost thou thirst, base Trojan,
To have me fold up Parca's fatal web ?

7. For what purposes does Shakespeare use the Chorus in this play ?

8. Point out ways in which the patriotism of Englishmen is appealed to in the play.

(b) Simplify $(x-y)^2 + (x+y)^2 + 3(x-y)^2(x+y) + 3(x+y)^2(x-y)$
(c) Find the value of $(685696)^2 - (685596)^2$
2. (a) Solve the equation $\frac{x}{3} - \frac{x}{4} + \frac{x-2}{5} = 3$.
(b) A man walks one-half of a journey at the rate of 4 miles an hour, bicycles one-third at 12 miles an hour, and rides the remainder on horseback at 9 miles an hour, completing the journey in 6 hours and 10 minutes. Find the length of the journey.
3. Solve the equations
$$\begin{cases} \frac{2}{x} - \frac{3}{y} = 3. \\ \frac{5}{x} + \frac{6}{y} = 48. \end{cases}$$
4. Draw the graphs of $x - 15 = 0$, $y - 5 = 0$ and $2x - y + 5 = 0$ and find the area of the triangle enclosed by these three lines.
5. Simplify $\frac{(a+b)^2 - c^2}{a^2 - (b+c)^2} \times \frac{(a-b)^2 - c^2}{(a+b)^2 - c^2}$ and find its value when $a = -c$.
6. Solve the equation $x^2 - 1 + x^2 - x = 0$.
7. Find the lowest common multiple and highest common factor of :—
 $x^2 - 10x + 25$, $x^2 - 25$, $x^2 - 125$.
8. A circular grass plot of radius 10 yards is surrounded by a flower bed of uniform width. If the area of the flower bed be three times that of the grass plot, what is its width? (Area of a circle = $\frac{1}{2}\pi r^2$).
